

Groundskeeping Tips

- Clear walkways for safety (sweeping or blowing, etc)
- Lawn care and all that entails
- Raking or blowing leaves and/or other debris after storms
- Watering and weeding flower beds
- Fertilizing grass, flowers, shrubbery, as needed
- Trimming shrubbery
- Mulching or placing pine straw where needed
- Removal of fallen limbs or twigs
- Removal of spider webs, especially around lights and doors
- Spraying for insects, such as mosquitos
- Clear storm drains clear of debris, if not provided by city or county
- For safety and mobility, keep concrete-safe “ice melt” in places that have wintry weather

This is a partial list and will be updated as care partners send additional items of importance.
